

product name	NOX FLORA
codes	1681 1686 1688
description	planters on castors
design	Raul Barbieri
year introduction	2004

dimensions & weight	1681 - Ø 38 x h 40 cm (planter h 38 cm + 2 cm castors) - net Kg 4,300 1686 - Ø 52 x h 45 cm (planter h 43 cm + 2 cm castors) - net Kg 7,200 1688 - Ø 66 x h 50 cm (planter h 48 cm + 2 cm castors) - net Kg 10,500
--------------------------------	---

materials & finishing	entirely in brushed stainless steel AISI 304 0,8 mm with invisible welding seams, safety rounded edges castors in rubber (1681: 4 castors; 1686-1688: 5 castors) internal saucer in polypropylene (1681: Ø 35 cm; 1686: Ø 46,5 cm; 1688: Ø 61,5 cm)
use instructions	always use the provided internal saucer; never place the soil-earth directly inside the planter.
recycling	100%
maintenance	use a soft cloth with normal glass cleaner or water and neutral soap, working in the same direction of brushes; do not use chemical products or abrasives.

technical properties	watertight: thw NOX FLORA planters are 100% watertight thanks to a silicon-rubber internal gasket placed at the bottom; however, as over the years it could deteriorate, for greater safety we recommend always to use the provided polypropylene saucer. outdoor use: given that in nature there is no existing material which is completely unaffected by atmospheric factors, these planters are to be considered suitable for outdoor use having shown only slight superficial changes when subjected to the corrosion resistance test of 500 hours exposure in a salt spray chamber; however are not suitable for use in swimming pools and saunas , where the atmosphere is loaded with chlorine, because specific antibacterial substances used for the routine sanitisation of fittings can cause powerful aggressive reactions capable, in the long period, of damaging their surface.
fire reaction	0 (zero)

packing	
1681 - 1 carton	43 x 43 x 44 cm - Kg 6,000
1686 - 1 carton	60 x 60 x 49 cm - Kg 9,100
1688 - 1 carton	73 x 73 x 56 cm - Kg 13,600
